

ANDERSON MŌRI & TOMOTSUNE

アンダーソン・毛利・友常 法律事務所

Anderson Mori & Tomotsune
Strengthens its Life Science & Chemical Practice

Our practice in new drugs and pharmaceuticals and new medical techniques, as well as biotechnology and nanotechnology, has dramatically expanded in recent years. At the same time, cross-border commercial transactions, large-scale M&A and other corporate realignments by companies engaged in these industries have steadily risen. Driven by these developments, we have strengthened our Life Science & Chemical ("LSC") Practice by drawing upon and integrating our expertise and experience in the fields of Regulatory/Compliance, Intellectual Property, Product Liability/Dispute Resolution and Corporate/M&A, to address and solve legal issues related to life sciences, healthcare and specialty chemicals in a more focused and specialized way.

 Corporate/M&A

Mergers & Acquisitions
Joint Ventures
Corporate restructurings (e.g., spin offs, management buyouts)

 Regulatory/Compliance

Licenses and approvals under the Pharmaceutical Affairs Act
Advice on fair competition regulations
Advice on environmental regulations
Advice on chemical substances and regulations

 Intellectual Property

Patent Litigation
Patent Licenses
Patent Applications and Prosecutions

 Product Liability/Dispute Resolution

High technology product liability
Complex and large scale disputes

Contact
